Customer Reviews

I mainly rented this book BECAUSE it had nothing but 5 star reviews. I really don't understand how anyone could possibly rate this book 5 stars. I'm not saying it was terrible, because it wasn't. The stories were somewhat realistic, despite these stories being supernatural. I could imagine these scenerios coming about if real life was like these stories. To me though, that's where the real problem was. This book was too rational. There wasn't enough romance. The endings left a lot to be desired- especially the first story. The sex was okay, but nothing I haven't seen before. I found this book interesting, but not as a romance, or erotic novel. It also could have used some editing. Whomever wrote this has potential. However, I think their potential would lean more towards

suspense or drama. I hope to read actual novels by this person. The only reason I gave this two stars, was because I didn't really understand how this was considered an erotic romance. It was a good book- just not even remotely what I expected!! also think that these stories should have been a lot longer. They were entirely too interesting to have ended so soon. The editing, length, and misplaced genre, were what took away 3 stars. However, I WILL keep an eye out for Hot Books Publishing. I think they could do way better.
