Ok, so I'm a Grandma! But the best way to learn how to read Spanish is to read Spanish. Now I can read Spanish books to my six year old grandson who is also learning Spanish at school. In fact these cute books make me smile.

My kids and I enjoyed reading this book but I was disappointed in the pages were laid out for the Kindle. Depending on how big the font was there would be text only on a page and the next page was nothing but a picture. I was not able to find a font size that allowed the text and the picture relating to that text to be on the same page all of the time. I normally try to point to the appropriate

part of the picture while reading the words.

Another great book...we love all the Howie books at our house! This one is especially funny to us because our dog has snuck in our van a few times wanting to join us on our trips. Thankfully, we haven't had the same adventure in the story like Howie! What a great series...perfect for little kids with easy to read (and remember!) words and the pictures are bright and colorful and fun to look at!

This darling puppy is sure to appeal to my first graders. The bright colors and easy reading will entice my beginning readers to dive right in to reading! Grocery shopping is an activity children are familiar with and can relate to. I imagine they will enjoy reading about a puppy getting into trouble in the store instead of themselves. I love the way the author shows the children how to forgive in each of her books.

Crash! Crash! Rumble! Splat! That's Howie in a grocery store! Wonderful little rhymes and interjections! The best illustrations of action and expressions I've ever seen in a children's book. And every one in the store laughs and helps clean up instead of getting mad! Fun for kids, very insightful for grown-ups! [...]

I just graduated from college with an elementary education degree. I read -Howie Goes Shopping- and was found the entire Howie series charming and am enthusiastic about adding it to my classroom library for young readers.

Yet another great book from Sara Henderson. I loved the words Crash! Rumble! Splat! and how Howie is always making a mess. This book makes reading fun and is a great addition to our collection.

Our daughters absolutely love this book. Howie is so silly and makes so many messes - the girls think it is hysterical. The Howie character is so sweet and lovable - a really fun book!
