## Customer Reviews

This item is a list of James Patterson's Alex Cross series. It lists the titles of the books in chronological order. There is no sex, no violence, no abusive language and no narration. It has been very helpful in telling me which books I should start with and in what order.

This book was designed to help readers understand what order James Patterson's books are to be read. It's a nice tool, especially if your interested in reading one of his series, since there are so many of them.

This is a well organized reference guide to the many different series of James Patterson books. Each series is listed separately and in chronological order. This little guidebook is well written, really useful and helps me know quickly and easily if I am reading the books in order. It also helps me eliminate the possibility of starting a book only to discover, after several chapters in, that I read it

previously and have no desire to do so again. I already had created lists of many books I have read, but because I am such an avid reader, I found the whole process a bit tedious and slow moving. This handy little reference tool makes it so much easier to keep track. It's easy, peasy to keep track of when someone else does the nitty gritty for me. These guides are also written for other renowned authors. I do recommend themâ |...especially for authors that have numerous series.

Series Reading Order has been very helpful to me in determining what book to read next.. At first I just randomly selected a novel from a different series .. As I became more interested , I wanted to go back and read all the novels ..so this has been a great help in the selection process.. I highly recommend it to everyone who enjoys James Patterson as much as I do!

I love James Patterson's work, but have made the mistake a couple of times of reading his "character" books out of order. this is a great guide for me to look at before I order another book.

I really loved being able to see the order of novels so that I can buy and read and follow up various stories.I enjoy all the books and this book really show various books I have missed reading. Many thanks...

It's a good list in order of, all the various series, but doesn't deliver on it's promise of being able to check off or even highlight the books you've already read. Tapping on the title does nothing on my older kindle, my android phone and the app on my Surface. If you hold down on one word in the title, it does bring up the dictionary feature and I guess you can highlight that one word, but it's not as cool as it sounded.

Very helpful list for those, like me, who like to follow characters through many books.
