For centuries, Finn Qualtrough has been looking for the leader of the Scatha Cruor and the killer of his parents. His search leads him to Eirene, a computer intellectual, hacker, and his soul mate. But when the Scatha becomes dangerously close to him and the woman he loves, Finn must risk it all to save her. Isobelle Cate introduces a new breed of paranormal creatures in Rapture at Midnight. Werewolf, vampire, human warriors? That's a whirlwind of power and sexiness. And boy, was the mercury boiling from the heat of this story. My favorite part, though, had to be the great amount of thought the author put into the history of the Cynn Cruor. I enjoyed learning about how such a powerful ancient army and its enemy survived to present day. Even though this story was filled with sex, I felt the amount of it was overwhelming and, at times, distracting. I think it hindered the plot and characters' relationship instead of enhancing them. It was just too much. Once the characters finished their sexual fling, they would start again. And again. Since the main characters met, sex seemed to be their only interactions. It was difficult to believe their love, and so, it was hard to connect with them as characters. Besides being told about their feelings and their mystical Cynn Cruor mating ritual, Eirene and Finn's relationship didn't feel like love. I just wished more focus was put on the Cynn Cruor and Eirene and Finn's interactions, rather than their intimate moments. Also, when the evil villain, Dac Valerian, the head of the Scatha Cruor, came into the picture fully, his part was very brief. The action was brief. Since the Cynn and Scatha Cruor aspects were my favorite part of the story, I really want to see more of that in the plot.

This author puts a different twist on Weres and Vamps with them being part of each including part human. This gives a different look at being something that I have never seen, I found it to be very interesting. This is not your typical Paranormal this author takes it to a different level. I totally loved

this book! I thought it was awesome to see how being part of each make them different than if they were one hundred percent one or the other. I loved how they find their mate and how they mated. I found this to be one hot read I doubt you can read this and not get a little excited yourself. The chemistry between the main characters is powerful you can feel the pull and power of it. Once the matting is done to know what the other thinks, feels, knowing where they are at all times, their pain, to be able to heal them just blows my mind. To go 100 of years without finding that one person who is your soul mate and maybe not finding them ever must be very hard. I knew from the start that Eirene had to be very special with all that she did I think even Finn knew after he saw what she did and stood up for herself. She is a wonderful strong woman who stands her ground even when the odds are against her. She will fight to the death for those she cares about. She is just a wonderful love strong person who gives so much and brings so much to this story. Finn is one hot Cynn Cruor who can bite my neck anytime. He intrigues me with all he can do. He is such a caring soul out to find his parents killers. You feel his pain and sorrow from the first page it breaks your heart to see him as a young boy. He grows in to a find man any parents would be proud of. He doesn't understand the strong pull he has for Eirene.
