Customer Reviews

Hunted is even better than the first book in this series (Claimed). For one thing it is longer - which means that the author has even more room to showcase the fabulous worlds that her imagination has created. Also, we still get to see what is happening with the hero and heroine of the first book and some very intriguing hints of what is to some in the third and fourth books. And even though it was long, it never dragged. I stayed up way too late finishing it. The main romance between Sophie and Sylvan was really terrific with two damaged people coming together. (Warning - Sophie has a traumatic event in the past that is touched upon in this book.) Sylvan was so sweet to Sophie - but of course with this author you know you will be getting some great steamy scenes as well.Overall just a really engaging, well-written, and interesting romance. Now I can't wait for the next one!

Here's the best thing about this series: you're not left wondering what happened to the other people that you've already become attached to from prior books. While the main focus was on Sylvan & Sophie, the author acknowledges that their family and friends are still going through changes that the reader needs to know about to get the full Kindred world experience and the longer book allows for that. The love scenes were even hotter and thank god I'm married or I'd never be able to keep batteries in stock!!! I loved that, even with all the drama that comes with new relationships, the women in the series pull together in times of need (be it emotional or ice cream lol). After finishing this book, I'm even more excited to get to book 3 featuring Kat (she has to be my favorite character so far and it was great to see so much of her in book 2!) and you know what? I'll come right out and say it... I hope Xairn get his own book, too.

#2 in the Brides of the Kindred series, and better than the first. This book is labeled "super plus" length, and that was really my biggest complaint: it was too long. A lot of the book was the same scene over and over, just moving the setting where the heroine and hero engage in the no-we-shouldn't, but yes-we-must sex scene. This is erotica, after all. Anderson always follows the same format: the stuttering and blushing sexual innocent confronted with the overwhelming maleness of her hugely endowed primitive ravisher, and a very specific fetish that I've never read anywhere else. If you've read the author before, you know what to expect. If not, this is a solid introduction to her style. And in terms of bang for your buck (double entendre intended), you can't beat the price.

Sophia is claustrophobic, scared of needles, scared of blood, scared of heights, big dogs and haunted house carnival rides. Something bad happened in her past, but the way she's freaking out about everything, including squeaking constantly when she accidentally touches a scrape is getting a little irritating. And poor Sylvan, everytime she looks at him it's in fear or terror. Even when he's trying to comfort her after she goes to him!, she still recoils. Why do these brothers have to be tortured by being attracted to such basket-cases? Olivia was just as much a hurtful freak. Then Sophia finally starts to want Sylvan and makes him lick all her rashes. It was one of the grossest sex scenes I've ever read. The book ends with the third friend who seemed the most reasonable of the three disliking these twin guys for doing a psychic link to save Sophia that has made her know their thoughts and even though this has never happened to them before, she's angry that it's happening at all and they must be to blame. Totally unreasonable. I loved Planet X by this author but this bride series is getting on my nerves.Roll your eyes comment: "Who even is this Mother L'rin person? What are her qualifications? Where did she do her residency?" This is about an ancient healer on another planet.

It's been awhile since i've written a review and i must say this story made me upset enough to write a review. Sophia was not a like-able character. Yes, she is flawed, we all are!!! But seriously, did she have to be such a sniveling, weak minded, intolerable piece of work?? I did not like her in Claimed but i figured with her own story, she would be redeemed. No can do, still absolutely loathed her. She was afraid of everything, including her own damn shadow. This character cried so much, I needed a dramamine just to get through the chapters. It took me forever to finish this book. I wanted so much to like her, I couldn't help but feel that Sylvan got shafted. Her first reaction to everything was with fear, I mean EVERYTHING!! Most of the freaking book was wasted just trying to convince her to try something new. Now that I've gotten that off my chest, I can honestly say the story is not all bad. Xairn held my interest, can't wait to get to his story. I love wounded characters that show strength in spite of it all. I fell in love with the world building. I can just imagine traveling through space, experiencing life beyond earth. I gave this book 3 stars because Sylvan deserved a medal for his bride. I'm just saying!
