The Bear And The Unicorn: Book Five Supernatural Enforcers Agency

Synopsis

Fired from his job at the Supernatural Enforcers Agency due to his short fuse, Zane Matthews starts his own detective agency. Mostly itâ€™s cheating spouses, with a little bit of underwear theft, and Zane spends his days trying to learn how to control his anger and get back into the SEA. But that changes when the beautiful and kind Sky Danvers walks into his office. She thinks sheâ€™s being stalked, and his howling bear will do anything to protect her. Even if it involves attending yoga classes and eating tofu. But rare species are going missing across the country, and Sky is the rarest of them all. Can he save her, learn how to control his temper and prove heâ€™s the man she needs? Caution! This does contain swearing (thereâ€™s a lot of use of the f word!), as well as scenes of a sexual nature with m/f interaction intended for mature readers.

Bear PI meets Unicorn in his office. Mate was his first thought. She was there to get help to protect her from someone following her. Was it her ex boyfriend, coworker, or someone else. The more they worked together the closer they became. Several people were not happy about it and Zane was kidnapped. This definitely put a new spin on life. Even Juliet his ex boss was investigating the

same case but for different reasons. Wonderful story that comes together perfectly at the end for the bear and Unicorn but leaves Juliet open for her own story. Well done!

I definitely enjoyed it. It jumped around a bit between story lines but I liked each of the story lines so it was ok. I like that the author writes about different animals instead of just relying on the typical wolves. This is my favorite series so I'm always looking forward to the next one.

Enjoyable yarn. The characters don't really change from story to story, but if you liked the previous ones you'll probably like this one. Some mixed up adjectives kept jerking me out of the narrative: horned animals gore their victims in an attack, not maul; bears do not howl; equine animals do not mewl.

Omg, Zane is the worst. And by worst I mean insanely sexy and hilarious as he tries to get his aggression under control. So funny. Also, they introduce a side character saber tooth tiger that I can't WAIT to read about. His mate is in for a wild ride.

This book is a great shifter romance with all different kind of interesting shifters to boot? It fast paced, funny, the romance is hot but not over the top, and a good read for those who love paranormal romance? Highly recommended and can't wait to read the next one.
