The Virgin Intern (A Dirty Office Romance)

Synopsis

He's a dirty kisser... and even dirtier in the bedroom."Stay away from Andrew Finch." That was my uncle's warning when I started interning for his company. I took it to heart. How could I not? There was no way I was going to risk my blossoming career by disobeying. But on my first day, pushed together too closely in a stock room, I met him. I didn't know guys like Andrew existed outside of Men's Fitness magazines. His eyes cut through my clothes, and I'm sure his smirking mouth could get a girl off easy and quick. Not that I'd know... I'm a virgin, after all. I want to listen to my uncle and keep my distance, but Andrew makes it impossible. We don't just work together, he lives in the same building as me! When he offers to help me move, one thing leads to another. I never had a chance. Andrew is wild—a real kinky kind of alpha. You won't believe what he does to a pair of my panties... or what I do with them when he's done. But I shouldn't have given in. Now that I've had a taste, I can't stop myself. This is a standalone novella with a HEA and NO cheating! Penny Wylder writes just that-- wild romances. Happily Ever Afters are always better when they're a little dirty, so if you're looking for a page turner that will make you feel naughty in all the right places, jump right in and leave your panties at the door!

Customer Reviews

I should not have bought this book. I read the one prior, thinking maybe this could be a hot read. But sadly, I was far too thrown off by the lack of editing and it drove me crazy. I don't like to write negative reviews, I fret over it. But this is a lot more of a vent out of frustration than anything else. A few examples: The meet scene, which could have been cute - if it wasn't so inaccurate that it caused my OCD to go into overdrive. "I take the paper drawers all the way out and stack them to the side. Looking up inside the innards of the machine, I think I can just see the bottom corner of a piece of paper in the rolling mechanism. I open up the door to expose the rest of the machine - POOF! Okay, apparently it's more than just a paper jam. I blink to the toner out of my eyes." Okay, so you see my problem here is that copy machines that are nice - ones that fancy law firms would use, well... those have a separate place to put toner. And it's put in forward, the opening is inserted and when you open other doors, although there might be toner residue there - it's not going to explode into your face. And if you just DID get toner in your eye, you aren't going to flirt. You are going to stick your head under a faucet to clean out your eyes. I know that is nit-picky. But you know what? This is stilling in the top 20 on right now. And it's a little frustrating because this book did not read like one that should be sitting there. Then toss in... "It's soft, barely audible, but a smile slowly spreads across his face, and then his mouth is on me again." I read that sentence ten times thinking I read the wrong word. Nope. We have smiles that whisper now. So this is the deal.
